## NEED TAR IN GENOA.

Six Business Men Torture a Horse to Death.

ONE A SUNDAY SCHOOL TEACHER.

To Curb the Horse's Spirit He Was Driven Furiously, Then Hobbled, Beaten With Clubs and Drowned in Pell's Lake. Their Arrests May Follow.

GENOA JUNCTION, Wis., June 11.—Humane society officers have entered complaints against several Genoa business men, who are charged with shocking brutality to a horse. William Alberts, one of the men, owned an untamed gray broncho, and he had determined "to break it or break its neck." He had come to the conclusion that the proper caper was to race it four or five miles, and then when well heated up, to tie its front legs to a rope around its neck, and with clubs drive and goad it deep into the cold water of the lake, when it was calculated that the animal's exuberant spirits would be measurably tamed down. A party of six went out to Pells' lake to aid in the new process of horse-breaking. The poor beast moaned and cried piteously at the brutal treatment it received, and struggled in its desperation. Finally it was driven beyond its depth, and being tied and fettered in such a manner that it could not swim, it got cast, drowned, and is now food for fishes. The principal in the affair is teacher in a local Sunday school, but there is a chance that he will not be at liberty to take his class next Sunday.

## TIRED OF WAR.

Balmaceda Makes an Unsuccessful Attempt to Secure Peace Through Minister Egan.

LIQUOR, June 12.—All reports that the congressional party is disposed to sue for peace with Balmaceda have been effectually disproved by its action of Thursday. President Balmaceda, in fact, took the first step towards negotiations by sending word to the congressional leaders here that if they had any new propositions for a settlement of the quarrel in Chili he would receive them through Patrick Egan, United States minister to Chili. The congressionalists replied that they had no propositions to make, as they represented the legal government of Chili and regarded Balmaceda as a usurper. It is not known here whether Minister Egan has been authorized to act in any way as a mediator between the parties in Chili; but it is not thought likely that Balmaceda would have used his name without authority, or that Minister Egan would have given him such authority without instructions from Washington. In any event, however, nothing so far has resulted from this attempt.

WASHINGTON, June 12.—The Chilean legation has received a telegram from Chili saying that the naval vessels of the government had pursued the insurgent vessels in Tarapaca. The Condell, the Lynch and the Imperial have bombarded Pisagua and Iquique without managing to bring out the insurgent ships, which hide among the foreign vessels so as not to be destroyed by the torpedoes. The insurgent vessels are in a very bad condition, the telegram says, and all the veteran sailors have deserted and offered their services to the constitutional government.

SAN PEDRO, Cal., June 12.—The Robert and Minnie was released under \$3,500 bonds and sailed Wednesday afternoon for Eureka, Cal. Capt. O'Farrell is under \$5,000 bonds and the original crew is still held in the county jail at Los Angeles, unable to get the bonds required. A new crew was shipped here. Capt. O'Farrell will try to get a load in Eureka for transport and be back in time for his trial.

## LAST HONORS.

Sir John Macdonald Remains Interred at Kingston—An Immense Procession Escorts the Body of the Dead Statesman to Its Final Resting Place.

KINGSTON, Ont., June 12.—Beneath a new-made mound in Cataraqui cemetery, in a beautiful little valley, with its velvet fields and peaceful farmhouses and wave-washed by the waters of blue Ontario, have been placed all that is earthly of the late Sir John Macdonald. With almost royal honors and amid the mourning of a nation the body of the dead premier was borne to its last resting place. On all the public buildings and on many business houses the national colors floated at half-mast. Down Princess street the principal buildings were draped in festoons of black bunting and in many of the windows were portraits of the late premier draped in black. The city building, in which the remains lay in state, was magnificently draped. An immense throng of people passed into the hall, viewed the remains and then emerged from the room.

An enormous crowd of people poured into the city from the surrounding country all morning. An early train from Ottawa brought the members of the senate and house of commons, the governor general and staff and others who were to take part in the funeral. The cortege moved at noon. The various civic and military bodies quickly fell into line and to the booming of cannon from Fort Henry and the solemn tolling of the city and church bells the march to the grave began. The column consisted of civic society, police, in many of artillery, hearse with bodyguard of cadets, mourners, governor general and staff, army and navy, provincial governors, bishops, cabinet, judiciary, legislative, provincial assemblies, consuls, deputy ministers, deputations from other cities and citizens generally. The cortege passed along Ontario street to Princess street and up that thoroughfare to Cataraqui cemetery, a distance of over 3 miles. Arriving at the cemetery the remains were taken in charge by the masonic fraternity and interred with masonic honors.

## FOREPAUGH MEN IN TOWN.

Another Coat of Red Paint Given to Things in General.

Forepaugh's advertising cars were side tracked in Janesville last night, and the city walls will once more be made lurid. The big shows have been newly equipped for this, their twenty-eighth consecutive season, and will exhibit here June 24 with its immense city of tents—fourteen vast pavilions, which require four great trains consisting of fifty cars each sixty feet in length to haul here. Three million dollars are invested in this enterprise, and it requires \$5,500 to pay its daily expenses. Twelve hundred men and horses, more than 200 wild beasts, as many foreign and American artists, and nearly a like number of Wild West people complete the show.

MANY WERE DROWNED. A Waterspout in Texas Causes a Great Amount of Damage.

GAINESVILLE, Tex., June 12.—News has been received here from Frazier, Green county, of destruction of life and property caused by a terrible waterspout, accompanied by a windstorm, which visited that town and vicinity Tuesday night. Rain had been falling several days, and Tuesday night about 11 o'clock a waterspout burst and in a few minutes the streets were 4 feet deep with water, presenting the appearance of a raging torrent. All the business houses were flooded. Men rescued buggies and with great difficulty succeeded in hauling the women and children to places of safety. Three persons were drowned in Turkey creek—Pomp Poindexter, a young farmer, his sister and a young man named Albright. The dwelling house of Capt. Phillips was lifted from its foundation and carried nearly a mile, when it was hurled against a tree and wrecked. Phillips and one of his daughters caught some floating debris and were washed ashore half a mile from where the house was demolished. Mrs. Phillips and her babe caught a plank and were washed into the branches of a large tree, where they remained till the next day, when they were rescued by parties in a boat. A large number of houses were blown down and many others washed away. Dug-outs were filled with water and hundreds of people and live stock, crops and other property swept away. A young farmer named Burdette, while trying to reach the shore in a ferryboat, was thrown from the boat and drowned.

ST. LOUIS, June 12.—A special from Greenville, Tex., says: Near Leon, L. T., 30 miles from here, on Red river, the dead bodies of a man, woman and little babe were found in a drift, they having been drowned during the late overflow. William Lynn, a farmer, residing a mile north of here, said Hickory creek was drowned in the stream while trying to ford it. The rise in the Red river is unprecedented. At Warren's and Sivil's bends, 30 miles northwest of here, the destruction is widespread. In these two bends there were 10,000 acres of corn, cotton and small grain cultivated by some fifty families. All these crops are destroyed, most of the houses swept away and large numbers of cattle, hogs and chickens drowned. At Yellow Banks ferry a Mr. Burdette was drowned while trying to reach the shore in an old ferryboat.

DAYTON, O., June 12. A cloud burst over the city came at 2 o'clock Thursday afternoon flooding everything. The lightning struck in many parts of the city. One tenement house on Conover street was blown down, but no casualties are reported. The Miami and Erie canal bank broke two miles south of town and is now flooding the garden lands along the river.

## OFF FOR CHICAGO.

A Party of Foreign Diplomats Leave Washington to Inspect World's Fair Prospects.

WASHINGTON, June 12.—The kindly interest in foreign nations in the World's Columbian exposition is further assured by the departure from this city of a party of gentlemen representing the diplomatic corps. They go to Chicago under the escort of Director General George R. Davis and Llewellyn Brown, chief clerk of the state department. The party includes half a dozen ministers from foreign countries and as many more diplomats of less distinction. They are: Theodore Roustau, the French minister; Senor Suarez, the Spanish minister; M. Le Ghaht, the Belgian minister; Mavroyeni Bey, the Turkish minister; Minister Grip, of Sweden; Senor Guzman, the Nicaraguan minister; Senor Hurtado, of the Columbian government; Ye Cha Yan, the Chinese minister; Pung Kwang Yu, first secretary of the Chinese legation, accompanied by Ho Shen Chee, his translator; Count Batthyany, of the Austrian legation; Mr. Batkine, secretary of the Russian legation; Alan Johnston, the secretary of the English legation and the personal representative of Sir Julian Pauncefote, and M. de Claparede, of the Swiss government.

Director General Davis is gratified that so many foreign representatives have been persuaded to visit Columbian fair headquarters for the purpose of ascertaining what is being done, and hopes to have many valuable suggestions from them as to the part the several countries may take in the exhibition.

The President's Daughter in London. LONDON, June 12.—Mrs. McKee, the daughter of President Harrison, and Mrs. Russell Harrison have arrived here. They were met at the railroad station by the United States minister, Hon. Robert T. Lincoln, and by the attaches of the United States legation. Mrs. McKee and Mrs. Russell Harrison were immediately driven to Mr. Lincoln's residence, where the travelers will remain as the United States minister's guests during their stay in London.

May Go to China. NEW YORK, June 12.—A Washington special to the Herald says it is reported that President Harrison has decided to send ex-Governor and ex-Senator Gilbert A. Pierce, of North Dakota, as representative to China. Mr. Pierce is now an editorial writer on the Minneapolis Tribune. The appointment of Gov. Pierce will likely be followed by the appointment of ex-Senator Blair, as minister to Japan.

NEW ORLEANS, June 12.—J. W. Harris, superintendent of the soldiers' and sailors' orphan's home at Knights-town, Ind., committed suicide at the St. Charles hotel by cutting his throat with a pocketknife late Thursday.

## TWINE MADE OF HAY.

Jefferson to Manufacture it for One Cent a Pound.

MARSH GRASS ALL BOUGHT UP.

Prospects That Farmers Having Low Land May Dispose of Their Hay at Profitable Figures, and Find a Steady Market. Cheap Binding Twine Offered.

JEFFERSON, June 12.—During the last week New York parties have been buying all the wild marsh hay that is to be had, and shipping it east in bales. It is now announced that exporters are going on to use it for making a cheap but superior article of binding twine. Should the venture prove a success, of which the interested parties feel confident, a twine factory is to be erected here or at Dousman, and a fair quantity of binding twine can be sold at a cost less than a cent a pound. It is said that the twine made from hay will work satisfactorily without any alteration of the present twine binders.

C. & N. W. Officers Inspecting the Line. GREEN BAY, June 12.—The officers of the Chicago & Northwestern railway are making their annual inspection of their road. M. Huggitt, president; J. M. Whitman, general manager, and Albert Kepp, chairman of the executive committee, who have just been over the Omaha system, yesterday came across from Watersmeet, arriving in Fox Howard at 5:00 p. m. From here they go south.

## OHIO PROHIBITIONISTS.

A State Ticket Named and a Platform Adopted at Springfield.

SPRINGFIELD, O., June 12.—The prohibition state convention adjourned Thursday night after making the following nominations: For governor, John J. Ashenbust, of Canton; for lieutenant governor, W. J. Kirkendall, of Jackson; for supreme judge, H. L. Plake, of Sandusky; for auditor, Charles A. Reeser, of Springfield; for member of the board of public works, T. A. Rodifer, of Bellair; for dairy and food commissioner, W. F. Brown, of Butler; for state school commissioner, Prof. E. R. Zellers, president of Hiram college. The platform declares in favor of the prohibition of the liquor traffic, remedying class evils, opposes alien ownership of land, further grants of land to corporations, favors government control of railroads and telegraphs, condemns speculation in margins and corners, favors gold, silver and paper for a circulating medium, woman suffrage, liberal penalties, better immigration laws; declares that the tariff should be assessed on the goods from such countries as tax American product and that the expenses of the government should be paid by an income tax and that all official fees should be covered into the public treasury and all officials paid salaries.

## KILLED HER SLANDERERS.

A Bridegroom at Paris, Ill., Stabs a Man Who Insultingly Referred to His Wife.

PARIS, Ill., June 12.—For some time a feud has existed between Thomas Benson and Elmer Farris two young farmers who reside near Edgar, in this county. Wednesday afternoon Farris came to this city and was united in marriage to Miss Ella Jones, a reputable young lady who resided with her parents in this city. About 5 o'clock a. m. the two enemies met at a barn in their neighborhood, when Benson, it is alleged, made some disparaging remark about Farris' wife. Farris resented the insult and Benson attacked him with a club. Farris then drew a knife and stabbed Benson in the heart, killing him instantly. Farris has not yet been arrested.

## The Michigan Legislature.

LANSING, Mich., June 12.—The senate took another turn at the railroads Thursday and passed Representative Richardson's bill which places all the railroads operating under special charters on the same level with general-law roads in regard to taxation. The senate also passed the senatorial gerrymandering bill. In the house an attempt was made to pass over the governor's veto the bill giving \$30,000 for the entertainment of the G. A. R. in Detroit, but the effort was a signal failure.

## Experts on the Zoldosky Case.

LANCASTER, Wis., June 12.—The experts occupied most of the time Thursday the Zoldosky case. Their experience showed Emma Malley's symptoms to indicate strychnine poisoning. The prosecution stated that its testimony was about all in and at 5 o'clock asked for an adjournment, which was granted.

## Doesn't Lose Her Pension.

WASHINGTON, June 12.—Assistant Secretary Bussey has ruled that, under the act of June 20, 1890, a soldier's widow, if dependent, may draw a pension even though she had remarried since the death of her soldier husband.

## TO-DAY'S ANNIVERSARIES

1804—Wat Tyler, at the head of 10,000 men, on Blackheath, near London, declared for the rights of the laboring people. This is the date usually taken by "labor reformers" as the beginning of their movement.  
 1489—James III of Scotland killed near Bannockburn by an unknown assassin, supposed to have been summoned by the aristocratic party; result, anarchy and final destruction of Scotch independence.  
 1804—London deprived of its charters by Charles II.  
 1742—Munich taken by the Austrians.  
 1802—Birth of Harriet Martineau, historian, philosopher and alleged atheist.  
 1802—Levee at Cairo, Ill., broke, causing a loss of \$20,000.  
 1861—The paper duty abolished in Great Britain.  
 1871—First railroad in Japan opened.  
 1891—The Egyptian obelisk started for New York.  
 1890—Railway collision near Armagh, Ireland; 10 killed and 10 injured.  
 1890—Southampton, on Long Island, celebrated its two hundred and fiftieth anniversary.

## BALOON MEN MAY WRECK THE PARTY.

Boss Wall's organ becomes much stirred up in its efforts to prove that the anti-prohibition organization tells things that are not true when it claims to have contributed very largely to the democratic campaign fund and was sold out by the democratic legislature refusing to repeal the local option law. It calls the society a "whisky-dealer's" association, and says they did not contribute anything to the democratic campaign fund. The 'ants' are much put out at the turn events have taken and declare they will pursue their ways outside the democratic party in the future. If they stick to the resolution the early decay of the Wisconsin democracy may be looked for. The anti-prohibitionists have been one of the main spokes in the democratic wheel in this state for many years, and they have contributed much of the money to carry on democratic campaigns.

## WHY I AM A PROTECTIONIST.

First—It brings together diversified industries which never fail to vastly increase the personal intelligence, industry and wage earnings of the people.  
 Second—It adds prodigiously to the power of increasing by machinery and steam and water power the necessities of life and of advanced civilization, and also greatly cheapens the cost of subsistence.  
 Third—It furnishes an opportunity for every person to find the employment best adapted to his or her genius and capacity that will secure the largest income or the greatest happiness.  
 Fourth—It creates a home market, without which the cultivators of land in America would be but a little better off than our aborigines.  
 Fifth—It is the bulwark of national independence in peace or war.—Justin S. Morrill in American Economist.

## ALBERT EDWARD NOT IN FAVOR.

The Prince of Wales must begin to realize that when he played baccarat at Tranby Croft he was weakening the foundation on which rests the British throne. The Christian World, a religious weekly paper representing all denominations of protestants, says of the prince in connection with the baccarat scandal: "The throne rests upon the foundation of public opinion only. A few more scandals like that of Tranby Croft would destroy this foundation, and Edward VIII would never be crowned." The British Weekly says: "The revelations are enough to sober up the strongest supporters of the monarchy."  
 All of which can hardly be comforting to Edward VIII that is to be.

## BICYCLES ON THE SIDEWALK.

Complaints are made by many people about the use of bicycles on the sidewalks. There is constant danger of accidents, and one case is reported of an injury to a little girl in the second ward. Various cities have passed ordinances making it illegal to run a bicycle on the walks, and compelling riders to sound a bell when going across cross-walks. No one will be inclined to ask for so stringent a regulation as this, but it is certainly not too much to insist that riders when using the sidewalk should exercise more care.

A campaign of lies may be successful in a single election. The same lies will not carry the party uttering them successfully through the second contest. This is why William McKinley, Jr., will be the next governor of Ohio, and the democrats will fail to resume business at the white house March 4, 1892.

Chicago is endeavoring to clear her sidewalks of awnings and other obstructions, and is likely to have several law suits on hand. The matter will be watched with much interest in Janesville, for suits of the same kind may come almost any time.

Elaine Goodale, the poetess of the Berkshire hills, remains constant to her Indian lover. Her taste may be questionable, but her constancy is commendable.

The McKinley bill again: The executive committee of the Illinois state grange has contracted for binding twine at a lower price than was paid last year.

Another man has failed to recognize Chapin. The mysterious stranger is more approachable than Tascott, but not much more satisfactory.

President Polk knows the situation in the south does no ill to democracy, and he proposes to devote his time to the unregenerate north.

## BADGER PERSONALS.

STEWART ALLEN, of the Nat Goodwin company, is spending the summer

at Baraboo, and, with the aid of local talent, will arrange two dramatic entertainments to aid in building a new Episcopal parsonage in that city.  
 D. B. SIMMONS will give \$10,000 toward the erection of a Y. M. C. A. building at Eau Claire on condition that Darides Breesse will donate an equal sum.

JENNIE MAXSON, of Walworth, won first prize in the sophomore prize essay contest at Madison.

GOVERNOR PECK goes to La Crosse on the Fourth of July.

## SOME WELL KNOWN FACES.

**Bishop Phillips Brooks.**  
 Phillips Brooks, who has been chosen Episcopal bishop of Massachusetts to succeed the late Bishop of Paddock, was born in Boston, Dec. 13, 1835. He was a graduate from Harvard in 1855, and from the Episcopal seminary at Alexandria, Va., in 1859. He at once became rector of the Church of the Advent, Philadelphia, three years later went to the Church of the Holy Trinity, in the same city, and in 1869 returned to Boston to become rector of Trinity church. He is noted as a preacher.

## ILLINOIS.

The Conference Committee Agrees on \$800,000 at the Sum to Be Appropriated for the Fair.—The Senate Adopts Its Report.  
 SPRINGFIELD, Ill., June 13.—Only \$800,000 will be appropriated for the Illinois exhibit at the world's fair. This conclusion was reached in the conference committee of the senate and house shortly after 2 o'clock Thursday afternoon. The senate concurred in the committee's report and the house will doubtless do so to-day.

SPRINGFIELD, Ill., June 12.—The house by a vote of 74 to 73, refused to concur in the majority report of the committee that considered the management of the Anna Insane asylum. The senate bill providing for state inspection of building and loan associations was ordered to third reading in the house after a motion to strike out the enacting clause had been voted down. The senate bill making the first Monday in September—"Labor day"—and Lincoln's birthday legal holidays, went to third reading in the house. So did the senate bill increasing the number of infantry regiments in the National guard so as to admit the Hibernian rifles. The senate adopted a joint resolution, hearing, endorsing the proposition on the part of the Grand Army of the Republic to erect by private donation a national memorial hall in the city of Decatur creditable to the nation and the state and an honor to our national defenders. The appropriation bills that passed the senate and are ready for the governor's signature are the following: For the Soldiers' and Sailors' Orphans' home; to assist the farmers in holding county institutes; to publish reports of the Illinois Dairy-men's association; to repair locks at Copperas creek on the canal; for the ordinary expenditures of the Chester penitentiary; for a training school for the Normal university at Normal. The bill providing that no street car line of 4 miles or less shall charge more than five cents for a continuous ride, failed to pass, receiving but nineteen votes. The senate passed the bill known as the 6 per cent. interest bill, after amending it by changing the contract rate of interest from 6 to 7 per cent. This practically kills the measure.

An Oakland man is paying an acquaintance a dollar a week not to speak to him for a month.

**Escape of Prisoners.**  
 The report that the prisoners have been and are constantly escaping from that malignant gaoler, liver complaint, is fully corroborated by the self-liberated captives. Hostetter's Stomach Bitters, they say, the means by which they get rid of their fetters. Few altogether avoid the bondage of this ailment, and few are unacquainted with its signs, viz.: Pain through the right side and shoulder blade, furred tongue, yellowness of the eyeballs and skin, sour breath, sick headache, dyspepsia and constipation. Hostetter's Stomach Bitters puts a prompt report to these, brings them to full stop in the short order. Whether the trouble is chronic or temporary, this medicine is equally effective, regulating the liver and bowels thoroughly. It is likewise a sovereign remedy for rheumatism, kidney complaint, malaria, heartburn and nervousness.

**Specimen Cases.**  
 S. H. Clifford, New Nessell, Wis., was troubled with neuralgia and rheumatism, his stomach was disordered, his liver was affected to an alarming degree, appetite fell away he was terribly reduced in flesh and strength. Three bottles of Electric Bitters cured him.

Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve, and his leg is sound and well. John Speaker, Cawina, O., had five large fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold at W. T. Sherer & Co. drugstore.

## WHAT THE STATE PRESS SAY.

## Sarcasm About Pearl Buttons.

Madison Journal: The Janesville Recorder grows sarcastic in talking about the pearl button industry, and wonders what we are to do for material for making the buttons when the Wisconsin crop of pearls is exhausted. It requires the mental grasp of a man who thinks pearl buttons are made of pearls to write for a democratic free trade organ, and to howl about "pearl duties, diamond duties," etc.

**Is Jerry's Thunder Stolen?**  
 Milwaukee Sentinel: Colonel Polk should copyright his speeches unless he is willing that the Hon. Jerry Simpson should "assimilate" them. In his Janesville speech Mr. Simpson gives as his personal experience what he heard Colonel Polk give at La Crosse as his personal experience.

**Great "Relief" to the Laborers.**  
 Oshkosh Northwestern: The gist of the tax amendment is that an additional exemption of \$300 has been allowed on personal property. In other words, a young man who has a "team" for taking his girl ailing, is not required to pay taxes on it.

## THE KEYSTONE BANK.

President Harrison Favors a Full Investigation.

WASHINGTON, June 12.—Bank Examiner Drew has been suspended from duty pending the result of an investigation into his connection with the Keystone bank scandal at Philadelphia. President Harrison has penned an answer to the letter of Mayor Stuart, of Philadelphia, requesting an investigation of the Keystone bank failure. The president says: "Your request that a committee of the council or its expert accountants be allowed to examine and inspect all the books, documents and records of the bank has been referred to the controller, with the suggestion that under the advice of the district attorney the receiver permit an examination by a proper representative of the creditors into all matters and accounts, and particularly of accounts where fraud or irregularities are charged, with such reference to residence as the interest of the creditors of the bank or the end of public justice make necessary. I am sure you will find every officer of the government having any public duty connected with this matter desirous to cooperate with the creditors of the bank in all measures calculated to protect their interests and to hold to proper accountability every person having guilty complicity with the failure."

The ugly rumors afloat in this city and elsewhere, that Comptroller of the Currency Lacey was a willing instigator of the late Secretary Windom and Postmaster General Wanamaker in not promptly placing the Keystone bank of Philadelphia in the hands of a receiver as soon as its financial condition was made known to him were indignantly denied by that gentleman when questioned on the subject. He said: "There is absolutely not a fragment of truth in the statement. The first intimation that I had of the internal affairs of the Keystone bank was the very night that Secretary Windom died in New York. So far as Postmaster General Wanamaker is concerned, he is innocent of the charge of interference by bringing a pressure to bear upon the secretary to keep the bank running because the treasury department had no knowledge of the things that were going on there until the night of January 26. Whatever blame may be attached officially to the delay must be laid at my door. It is difficult for people ignorant of the law and the duties which prescribe the action of the comptroller of the currency to appreciate all the nice points involved in the prompt closing of the doors of a bank is a serious matter. All banks cannot be treated alike, and no straight up-and-down line can be drawn and every bank be made to align with it. My best judgment from the knowledge at hand was to let the bank run on, for I did not know then what I knew later on, for remember that the true inwardness of the bank's condition only came out in sections as the papers passed. Personally I have been anxious to go to Philadelphia and answer all questions, but the president thinks that it is my duty to remain here; hence the preparation of the statement that is now in the hands of the secretary of the treasury."

PHILADELPHIA, June 12.—The announcement of Mr. Drew's suspension was not exactly a surprise to the authorities and others who have been interested in the Keystone and Spring Garden bank complications. This was not due to any particular knowledge affecting Mr. Drew's integrity, but growing out of the open dispute between Mr. Drew and Comptroller Lacey respecting the former's reports to the treasury on the condition of the Keystone bank before it closed.

On being shown the dispatch from Washington announcing his suspension Bank Examiner Drew said some days ago the comptroller wrote him desiring a conference on the situation in Philadelphia, and suggesting the propriety of his not resuming his work until such conference was had, and that on Wednesday he received a telegram from the comptroller stating that he would fix an early time for the conference. He assumes that this is the foundation for the reported suspension.

## A Remarkable Landslide.

ATCHEM, Kan., June 12.—The landslide at Oak Mills, south of here, which has been playing havoc with traffic on the Missouri Pacific railroad, is a great deal more extensive than was at first supposed. A ten-acre tract of land has slid down hill. On the land there is a part of wheat field, a farmhouse and several hundred trees. The ground seems to be underlain with soapstone and springs. The Missouri Pacific has had 200 men at work there all week shoveling mud and sand.

**Awarded \$35,000 Damages.**  
 BAKERSFIELD, Cal., June 12.—Mrs. Morgan, of this city, has just been awarded \$35,000 damages from the Southern Pacific company. About a year and a half ago she and her 2-year-old child were accidentally thrown from a car. The child died and Mrs. Morgan injured her shoulder.

Significant Press Utterances on the Baccarat Scandal.—The Queen Said to Be Greatly Displeased.

## WALES MADE MISERABLE.

LONDON, June 12.—A disagreeable scene occurred at the Ascot races Thursday, an unfavorable demonstration to the prince of Wales being made. An attempt has been made to hush the matter up, and the newspapers have been solicited from influential quarters to make no mention of the affair, or at least to minimize the importance of the affair. As the prince was driving up with a party of his noble friends the crowd in the vicinity, composed mostly of well dressed people, but with a sprinkling of a rougher element, hooted and jeered his royal highness making sarcastic allusions to the baccarat scandal. Some cried out: "Have you brought your counters with you?" and others indulged in more offensive thrusts. The aristocratic group around the prince, thought apparently too astonished and startled to be in full possession of their wits, managed to make a counter demonstration of a rather weak sort in support of the prince, who was himself pale with anger and who cast furious glances at his insulters. This is believed to be the first time that a disrespectful demonstration has ever been made against the prince of Wales by a crowd bearing any claim to respectability, and the incident is even more significant than the lecturing that he has been getting the last few days from religious and secular newspapers.

Several radical members of the house of commons have met and decided to put a series of questions to the government bearing upon the responsibility which the Tranby Croft party incurred in concealing Sir William Gordon Cumming's offense and the question of military discipline involved. If the replies are unsatisfactory they will move an adjournment. It is understood that the liberal leaders will hold aloof from the contemplated censure of the prince of Wales.

LONDON, June 1.—It is said that the queen is so deeply stirred up over the baccarat revelations that she has directed the prince of Wales to make an early personal explanation of his conduct and that some of the prince's associates in the game may be made to feel the royal displeasure. The secretary of state for war has been overwhelmed with letters demanding that action be taken against the implicated officers.

There is a rumor current in the city that Lord Coventry has handed in his formal resignation as master of the backhounds to Lord Salisbury in consequence of the feeling which has shown itself against him in connection with his part of the scandal.

LONDON, June 12.—The outspoken newspaper comments upon the part that the prince of Wales played in the baccarat scandal continue to be the sensation of the day in England and elsewhere. A newspaper reporter who was present near the prince of Wales at Ascot when the race for the cup was won by Lord Hartington's horse, telegraphed that the prince of Wales, who witnessed that event, was in a very sulky frame of mind, caused, it would appear, by the storm of adverse newspaper criticism which has swept and is still sweeping over the heir apparent of the throne. The religious press, as might be expected, is the most severe in its comments upon the prince of Wales' conduct. The Christian World, an influential independent religious weekly paper, representing all the Protestant denominations, says, for instance: "The throne rests upon the foundation of public opinion only. A few more scandals like that of Tranby Croft would destroy the foundation and Edward VIII would never be crowned." The British Weekly remarks: "The revelations are enough to sober up the strongest supporters of the monarchy."

The Vienna correspondent of the Times says that the baccarat scandal has caused a sensation in army circles on the continent, especially in countries where the prince of Wales is honored by the presence of special regiments. This correspondent also calls attention to the fact that an Austrian general who was found to have condoned, in a similar manner to that adopted by the prince of Wales, acts of cheating upon the part of one of his subordinate officers, was compelled to resign from the army in order to avoid being tried by court-martial.

LONDON, June 12.—Sir William Gordon Cumming has received over seventy letters expressing sympathy with him in his troubles. It is announced that Sir William Gordon Cumming has resigned from all the clubs of which he was a member. The costs in the suit were \$25,000.

Sir William Gordon Cumming is expected at his Scotch estates with his bride Saturday. The public bodies of the adjacent towns and the tenantry are preparing addresses of welcome, and triumphal arches are being erected through which the couple will pass in approaching their home. There is every indication that Sir William's neighbors are determined to ignore the impairment of his reputation and standing in other quarters.

**Found Dead in a Well.**  
 WINNIPEG, Man., June 12.—Wednesday at Woodburn, Man., Jane Madigan, a farmer's returned to his home in the evening and found his sister-in-law, who was keeping house for him, dead in the well. She had been outraged and then shot, presumably by a young lad of 17 who had been working for Madigan and who is missing.

ACT I.

"You dear old boy," said the girl, "I am sure I wish it could be—with all my heart—if I have any heart."

"I don't believe you have," replied the boy, gloomily.

"Well, but Reg, consider. You've got no money."

"I've got five thousand pounds. If a man can't make his way upon that he must be a poor stick."

"You would go abroad with it and dig, and take your wife with you—to wash and cook."

"We would do something with the money here. You should stay in London, Rosie."

"Yes, in a suburban villa—at Shepherd's Bush, perhaps. No, Reg—when I marry, if I ever do, I am in no hurry—I will step out of this room into one exactly like it." The room was a splendid drawing room in Palace gardens splendidly furnished. "I shall have my footman and my carriage, and I shall—"

"Rosie, give me the right to earn all these things for you," the young man cried, impetuously.

"You can only earn them for me by the time you have one foot in the grave. Hadn't I better in the meantime marry some old gentleman with his one foot in the grave?"

"And—and—may I call upon Rosie?"

"In two or three years the other F, I dare say, would slide into the G as well."

"You laugh at my trouble. You feel nothing."

"If the pater would part—but he won't—he says he wants all his money for himself, and that I've got to marry well. Besides, Reg—here he face clouded and she lowered her voice—

"There are times when he looks anxious. We didn't always live in palace gardens. Suppose we should lose it all as quickly as we got it? Oh!" She shivered and trembled. "No, I will never—never marry a poor man. Get rich, my dear boy, and you may aspire even to the valuable possession of this heartless hand."

"She held it out. He took it, pressed it, stooped and kissed her. Then he dropped her hand and walked quickly out of the room."

"Poor Reggie!" she murmured. "I wish—I wish—but what is the use of wishing?"

ACT II.

Two men, one young, the other about fifty, sat at the head of a small round table. It was after breakfast; they lay back in long bamboo chairs each with a cigar. It looked as if they were resting. In reality they were taking business and that very seriously.

"Yes, sir," said the elder man, with something of an American accent. "I have somehow taken a fancy to this place. The situation is healthy."

"Well—I don't know. I've had more than one touch of fever here."

"The climate is lovely—"

"Except in the rains."

"The soil is fertile—"

"I've dropped five thousand in it and they haven't come up again yet."

"They will. I have been round the estate and I see money in it. Well, sir, here's my offer. Five thousand down. Hand cash as soon as the papers are signed."

Reginald sat up. He was on the point of accepting the proposal when a pony rode up to the house and the rider, a native groom, jumped off and gave him a note. He opened it and read. It was from the nearest neighbor, two or three miles away. "Don't sell that man your estate. Gold has been found. The whole country is full of gold. Hold on. He's an assayer."

He put the note in his pocket, gave a verbal message to the boy and turned to his guest without betraying the least astonishment or emotion.

"I beg your pardon. The note was from Bellancy, my next neighbor. Well—you were saying?"

"Only that I have taken a fancy—perhaps a foolish fancy—to this place of yours, and I'll give you, if you like, all that you have spent upon it."

"Well," he replied reflectively, "but with a little twinkle in his eyes, 'that seems handsome. But the place isn't really worth the half that I have spent upon it. Anybody would tell you that. Come, let us be honest whatever we are. I'll tell you a better way. We will put the matter into the hands of Bellancy. He knows what a coffee plantation is worth. He shall name a price and if we can agree upon that we will make a deal of it."

The other man changed color. He wanted to settle the thing at once as between gentlemen. What need of third parties? But Reginald stood firm and he presently rode away quite sure that in a day or two this planter, too, would have heard the news. A month later, the young coffee planter stood on the deck of a steamer homeward bound. In his pocketbook was a plan of his auferent estate; in a bag hanging round his neck was a small collection of yellow nuggets; in his boxes was a chosen assortment of quartz.

ACT III.

"Well, sir," said the financier, "you've brought this thing to me. You want my advice. Well—my advice is—don't fool away the only good thing that will ever happen to you. Luck such as this doesn't come more than once in a lifetime."

"I have been offered ten thousand pounds for my estate."

"Oh! Have you? Ten thousand? That was very liberal—very liberal indeed. Ten thousand for a gold reef?"

"But I thought that as an old friend of my father you would perhaps—"

"Young man, don't fool it away. He's waiting for you, I suppose, round the corner with a bottle of fizz ready to close."

"He is."

"Well, go and drink his champagne. Always get whatever you can. And

then tell him that you'll see him."

"I certainly will, sir, if you advise it. And then—"

"And then—leave it to me. And, young man, I think I heard a year or two ago something about you and my girl Rosie."

"There was something, sir. Not enough to trouble you about it."

"She told me. Rosie tells me all her love affairs."

"Is she—she is unmarried?"

"Oh! yes, and for the moment I believe she is free. She has had one or two engagements, but somehow they have come to nothing. There was this French count, but that was knocked on the head very early in consequence of things discovered. And there was the Boom in Guano, but he fortunately smashed, much to Rosie's joy, because she never liked him. The last was this Evergreen. He was a nice old chap when you could understand what he said. Rosie would have liked the title very much, though his grandchildren opposed the thing. Well, sir, I suppose you couldn't understand the trouble we took to keep that old man alive for his own wedding. Since did it all could, but 'twas no use."

"And—and—may I call upon Rosie?"

"In two or three years the other F, I dare say, would slide into the G as well."

"You laugh at my trouble. You feel nothing."

In his pocketbook was a plan of his auferent estate; in a bag hanging round his neck was a small collection of yellow nuggets; in his boxes was a chosen assortment of quartz.

ACT III.

"Well, sir," said the financier, "you've brought this thing to me. You want my advice. Well—my advice is—don't fool away the only good thing that will ever happen to you. Luck such as this doesn't come more than once in a lifetime."

"I have been offered ten thousand pounds for my estate."

"Oh! Have you? Ten thousand? That was very liberal—very liberal indeed. Ten thousand for a gold reef?"

"But I thought that as an old friend of my father you would perhaps—"

"Young man, don't fool it away. He's waiting for you, I suppose, round the corner with a bottle of fizz ready to close."

"He is."

"Well, go and drink his champagne. Always get whatever you can. And

## NO DISEASE IN TOWN

Health Officer Robinson Removes the Richter Quarantine.

## JANESVILLE UNUSUALLY HEALTHY.

Undertakers Are Taking a Rest and Doctors Once More Have a Breathing Spell. Reports of Cases of Scarlet Fever Pronounced Groundless.

It is now perfectly safe to say that the diphtheria scare is over, and that there is no longer danger of the disease spreading in this city.

"I have declared the quarantine off at the Richter house," said Health Officer Robinson. "I am confident that the surviving members of the family are at liberty to go where they please, so far as quarantine rules are concerned. There is no longer any danger of the disease spreading from his home. The house and bedding and clothing not destroyed, has been thoroughly disinfected, and I pronounce everything perfectly safe. Why, Mr. Richter has gone so far as to whitewash his fence. He has thoroughly cleaned and cleaned everything in and around his house and premises. I only wish some other families I know would take half the pains to clean up, then there would be no danger or trouble on account of disease."

Bergman Home the Only One Closed.

"The only place now under quarantine is the Bergman house on Western ave. Here the two children affected with diphtheria are getting along very well. Quarantine at all other places has been declared off, and there not having been a case reported in two weeks I am satisfied that all danger is over. I have had a hard time of it for the past month. I have been on the go all the time, looking after this and that case, and I am about tired out."

Scarlet Fever Reports False.

"There is no truth whatever in the reports that cases of scarlet fever are afflicting with scarlet fever. There has not been a genuine case of scarlet fever in Janesville for several months. During the winter and early spring there were a few cases of scarletina in a very mild form, but there is none now in the city. I tell you there is no contagious disease in the city now outside the Bergman family on Western ave., and I don't believe there is a particle of danger now of its spreading outside the Bergman home. People ought to be satisfied of the truth of this from the fact that all the undertakers have been idle for a week, except when cases were brought from the country. The city is remarkably healthy, and there is no disputing it."

## COBB TAKEN FOR SIMPSON.

He Proved an Alibi, However, by Showing

R. V. Cobb, the six-foot-seven Georgia Farmer's Alliance organizer who has been spending some time in this city, appreciates a joke even if turned upon himself. He is not at all backward in telling of a good one, even if he gives himself the worst of it.

Mr. Cobb attended the picnic at Crystal Springs Wednesday, and waited long and patiently for the arrival of the Southern Railway. Mr. Simpson did not arrive, and at half-past four in the evening, Cobb concluded he had lost all railroad connections and would not come. He took his carriage and drove to the city, somewhat disappointed at the non-arrival of his right bower in the alliance cause.

Arriving in the city he thought perhaps Mr. Simpson might have arrived and gone direct to his hotel—the Park. To the Park House he called, but the porter, entering the office door, he was cordially greeted by Landlord Waldo with—

"How do you do, Mr. Simpson? I am glad to see you," extending his hand in fraternal greeting; continuing without giving his guest opportunity to say a word. "There has been a good many gentlemen calling for you to-day. Step right into the parlor, sir."

"Guess you are mistaken in your man, sir," replied Mr. Cobb, breaking into the remarks of the cheerful landlord. "My name is not Simpson, but it is Cobb," and he pulled up his trousers leg, revealing a buttoned colored stocking. "Don't you see I wear socks?"

Waldo gave the Georgian another hearty shake, begging pardon at the same time for his mistake in identity. Cobb tells the story himself, so it must be true.

## CAPTURED MADISON MONEY.

Janesville Marksmen Fare Well at the Lakeside Tournament.

Janesville marksmen won honors at the Lakeside Gun Club tournament in Madison. There were five matches, and H. H. McKinney, C. L. Valentine, and O. Sutherland got a share of the money in each.

The last contest was at ten singles, five traps. First money was divided between F. W. Curtis, R. Lang, O. Sutherland and C. L. Valentine, score 10 out of 10; second money, C. F. Ford, H. H. McKinney, L. Faerberbach and H. M. Mould, score 9 out of 10; third money, J. H. Brewer, L. Bessemer, A. C. Mayers, Andrew Mayers and Will Campbell, score 8 out of 10; fourth money, A. B. Morris, Henry Hamilton, J. H. Schuman and H. E. Kennicott, score 7 out of 10. This was one of the best contests of the day.

## IMPERIALS DELIGHT THEM.

Good Music Heard by Fort Atkinson People—Pleasure for Janesville.

Janesville people have a rich treat in store for next Friday evening, it being the concert of the Imperial Quartette of Chicago, under the auspices of the senior class of the High school. The Imperial Quartette gave a concert of the very highest order in Fort Atkinson, and this morning Professor Cooley received the following assuring dispatch from D. D. Mayne, principal of the Fort Atkinson schools:

"The Imperial Quartette has just given our citizens the best concert ever heard in our city. The city hall was packed, the largest crowd ever assembled at an entertainment here."

## IS JIM HALL TO SPARE HERE?

Fitzsimmons' Antagonist Writes That He Will Be in Janesville, June 15.

A letter dated Butte City received by John Kline from "Parson" Davies, states that Jim Hall, the pugilist, will be in Beloit the 16th inst., and begin his active training at once. He will be in St. Paul the 13th and will give an exhibition the 15th at Janesville. Mr. Davies says the Western trip has been successful. Mr. Kline has everything ready for Hall's work when he arrives, and there is none too much time before his match with Fitzsimmons he will buckle down to hard work from the word go. Kline and Bill Wood will be Hall's trainers.

Local sporting men say it is doubtful whether Hall's exhibition in this city can take place. Lappin's Hall is engaged for race week, the opera house is closed and the Army cannot be secured. They will give the "Parson" a positive answer by to-morrow afternoon.

## BEST RACES OF ALL.

The Coming Meeting Will Outshine All Previous Meets.

## ONE HUNDRED HORSES TO BE HERE.

Races at Rockford Last Until Eight O'clock Every Night—The Same Horses Entered Here—Salisbury's String Came To-Day—Bits of Track Dust.

Over one hundred flyers will be kicking up the dust at the Driving Park next week. Few of them have yet arrived, but everything is bustle at the track preparing for the greatest meeting that Janesville ever saw.

The stalls have all been put in perfect order. Many of the horses have been reshipped, and they are being made as comfortable as possible for the four-footed aristocrats that will soon occupy them.

Salisbury's String Here.

M. Salisbury's string of California cracks under the management of George Starr, for many years, Bud Doble's right-hand man, arrived today. This is one of the fastest strings of horses that has left the Pacific coast this year, including such horses as Margaret S. 2:12; Home-state 2:14; Direct 2:15; a trotter; Little Albert, Kate Agnew and others. Direct was formerly a trotter, but changed to a pacer last season.

## NO BAD MILK IN JANESVILLE.

The State Inspector Falls to Find Cause for Complaint.

H. R. Loomis, the dairy expert in the office of the state dairy and food commissioner, has spent some time in Janesville during the last few days making investigations of dairy products offered for sale. He left the city without making any complaints, appearing satisfied so far as could be learned, that people were commercially honest in Rock county. Mr. Loomis, however, arrested a Palmyra citizen the other day for selling skimmed milk to a cheese factory, and warrants were issued for the arrest of other parties on a similar charge.

## CAN IRON WITH ELECTRICITY.

A Novel Device That Is Offered to Janesville Housekeepers.

An agent was in town today looking for somebody to handle electrical flat-irons, which are attached by a wire and screw to an ordinary incandescent lamp socket during the process of ironing. The electrical currents heat the iron to any degree desired and keeps the heat at that point.

## GOOD RACE WEATHER.

Weather Clerk Helmsstead Says To-Morrow Will Be Fair and Warmer.

## THE GUARDSMEN LOSING INTEREST.

Captain Glass And His Men Prepare a Rifle Pit, But Have No Cartridges, Hence Can Not Fit Themselves to Make a Fair Showing When in Camp.

Captain C. F. Glass and a squad armed with pick and shovel marched to the Paul farm at the foot of Main street bright and early this morning, and at eight o'clock the big target was in place and a markers pit had been dug. There are still no cartridges, however, and very little range work can be done.

Militia men throughout the state are in the same fix as the Janesville company on the rifle practice question. Heretofore the time for qualifying, either as a marksman or sharpshooter, was confined to the months of June, July and August. After this period matches of a competitive character filled in the space intervening between September 1 and the opening of the winter.

No Precedent For the Delay.

During the Hoard administration, orders were issued by Adjutant-General Burchard on March 27. Up to this time, however, no reference whatever has been made to rifle practice.

This seeming neglect has wrought a deal of harm and made the men indifferent. At this time last year, enthusiasm was shown by friendly rivalry was apparent, and every nerve was strained by the individual commanders to have their respective companies in the van.

It Is Poor Policy.

State militia officers hint that the tardiness is but a part of the policy of the present regime to keep expenses down to the lowest possible maximum.

If such be the case it is probable that if another interstate competitive match is held this fall, Wisconsin's representatives will fare even worse than at the last shoot.

## CUT WORKS AT CENTER.

Many Corn Fields Will Have to Be Re-planted.

CENTER, June 10.—Many farmers have been compelled to replant the corn owing to the depredations of cut haw worms.

Quite a number have made a good start in raising tobacco.

The recent rains have done great damage washing corn and tobacco fields.

Children's exercises were held at the Disciple church Sunday.

C. S. Crow and Professor Lynn spend the week in Milwaukee.

Center brass band received their new suits in time to wear at the Crystal Springs picnic the 10th.

Rev. H. Smith of Kansas City discoursed at Center Sunday.

Center was well represented at the picnic Wednesday.

Cellar for the creamery is excavated. All should attend the tent services at Footville the last of the week and Sunday.

John Rowlett is making improvements.

Grove church children's day exercises will be held on Sunday morning.

Children's day services will be held at the M. E. church Sunday evening next.

Recent improvements of the highways are very encouraging. Good roads speak of the intelligence and pride of the citizens.

Take Lightning from Wire Fences.

In view of the recent losses by lightning it might not be out of place to give a suggestion recently published: It is to attach wires at short intervals, beginning at the top fence wire, wind the wire around each and plant the end in the ground. It is claimed this will take the current from the wires, thus making the danger comparatively small.

Janesville Folks in Jefferson.

Jefferson Banner: P. H. Bump of Janesville greeted old friends in this city yesterday. Al Kavelege, the genial court reporter occupies his accustomed seat at the court house this week. E. G. Fifield of Janesville made a visit in this city during the week.

Want the School for a Warehouse.

There is some probability that the old Fifth ward school building will not turn down, but that it will be moved to convenient lot and used as a storage warehouse by a local manufacturer. Negotiations are now pending for its sale, but nothing definite has been arrived at.

His Horse Left Him in the Lurch.

James Ward, Spring Valley, was in the big hall storm. Now he advertises that he has a team to trade for a yoke of oxen or anything that will not cost him to ship to suffer the blows of hail stones, when the fall the size of a cocoanut.

## CHURCH CORNER STONE LAID.

Presbyterians Take Part in Interesting Ceremonies at the New Church.

The corner stone of the new Presbyterian church was laid with imposing ceremonies this afternoon. The services were conducted by Rev. W. F. Brown, and were very impressive.

"I Love Thy Kingdom, Lord," a hymn by the choir, opened the exercises, and was followed by the invocation by Rev. E. L. Eaton. The reading of the psalm was by Rev. M. Evans, and a passage from the new testament by Rev. S. P. Wilder. Then came the laying of the stone by J. D. Rexford.

Mr. Rexford preceded the imbedding of the record box, by a careful review of the history of the church.

The hymn by the choir, "No Other Name," followed, after which Rev. Charles D. Merrill of Beloit, and Rev. W. D. Thomas, Ph. D., of La Crosse, delivered the addresses of the day.

The addresses were followed by a prayer by Rev. M. G. Hodge; hymn, "How Firm a Foundation," by the choir and the benediction by the pastor, Rev. W. F. Brown.

Money Enough.

The rich woman who was shocked to hear her daughter say: "A penny for your thoughts," when she ought to have offered a dollar, has a relative in California, of whom the San Francisco Examiner relates a "true anecdote."

She is not unknown in fashionable society, her wealth drawing about her a set of admiring followers. Lately she has had some affection of the throat, and called a physician. After an examination, he said:

"Madam, shall have to touch two or three of the affected spots with nitrate of silver."

"Oh, doctor, please don't do that!" answered the patient. "Use nitrate of gold. The expense is quite immaterial."

A Strong Reason.

She was having a confidential talk with her aunt.

"I can never marry Harry Westlock," she said, in a tone which implied that it was useless to talk about it. "I never can."

"And why can't you?" asked her aunt. "I'm sure I should think any girl would esteem it an honor to be Harry Westlock's wife. He is very wealthy, too. Why can't you marry him?"

"Because he hasn't asked me to, and I know he never will."—Boston Herald.

New Light on Raleigh.

The Earl of Leicester, alone of all Elizabeth's court, declined to endorse over the gallantry of Sir Walter Raleigh in throwing his cloak into the mud so that her majesty's feet would not be wet.

"Why are you so glum over it, Leicester?" asked Ben Jonson. "Not jealous, I hope?"

"Not at all," returned the earl; "but it was my cloak."—Puck.

Making a Sure Thing of It.

Rowne de Bout—Have you met Miss Chilton yet?

Upson Downes—No, I called there last Friday afternoon, and she was out. Rowne de Bout—That's strange. I called there the same afternoon, and she was in.

Upson Downes (dryly)—The next time I call on her, I shall go with you.—Puck.

Those Ill-Natured People.

Clara (haughtily)—I went to the theater every night last week and had a different belle (vindicatively)—You should be better than the same afternoon, and she was in.

"Cautious?"

"Yes, my dear. Ill-natured people all over town are saying you can't get the same man to go with you twice."—N. Y. Weekly.

How Was Tired of It.

"Young man, what time is it that you've been whistling all the morning?"

"That? That's an air from 'Lucia.'"

"Well, don't you think a change of air is sometimes beneficial?"—Harper's Bazar.

A Cruel Answer.

Maud—Oh, I'm invited to the Way-ups' ball; but I don't know what in the world to wear. What would you wear if you had any complexion?

Millicent—A thick veil.—Boston Courier.

A Good Reason.

Customer—Your ten-cent shine isn't as good as your five-cent one.

Bootblack—I know it, sir; that's the reason I charge more. They injure my reputation.—Puck.

## WHO DID HE ROB?

Officers Searching For the One Who Hid The Valuables—One Arrested—Who Has Been Victimized.

"Who has lost two fine watches and \$100 in gold?" This is what Janesville officers are trying to find out. Little Nellie Carlson, the twelve year old daughter of Mr. and Mrs. Carlson, 202 North Main street, noticed a strange man prowling around the Thorngood & Co.'s lumber yards opposite her home this morning.

A Little Girl on Watch.

She kept quiet and watched his strange and suspicious movements. Presently the stranger stooped down and shoved a package of something he pulled from his pocket, under the lumber pile, and then hurried away. Little Nellie went over to the lumber pile and found a red handkerchief with two handsome gold watches and five \$20 gold pieces tied up in it. Nellie took the booty to her father, and Mr. Carlson at once notified the officers.

One Arrest Made.

Officer Brown was detailed for watching the case, and about 10 o'clock he arrested a suspicious looking man who came to the lumber yard, but after some examination the officer decided to let him go.

At 4 o'clock the man was again placed under arrest.

The property was evidently stolen, and it is thought the thief was fearful that the officers were onto him, and he took this method to hide his money. Sheriff Hogan now has the booty, which is subject to the owner's call.

Later—The money and watches were taken from Robert Mansfield's trunk, Mrs. Aldrich's boarding house, Mineral Point avenue, last night.

A Modest, Sensitive Woman

often shrinks from consulting a physician about functional derangement, and prefers to suffer in silence. This may be a mistaken feeling, but it is one which is largely prevalent. To all such women we would say that one of the most skillful physicians of the day, who has had a vast experience in curing diseases peculiar to women, has prepared a remedy which is of inestimable aid to them. We refer to Dr. Pierce's Favorite Prescription. This is the only remedy for woman's peculiar weaknesses and ailments, sold by druggists, under a positive guarantee from the manufacturer, that it will give satisfaction in every case of money refunded. See guarantee printed on bottle wrapper.
